1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hogan. Hogan discloses the claimed invention, including an ejector 114, 116, means 39 for detecting a rotation angle of the ejector, and a control for controlling a rotation direction of the ejector.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hogan. Hogan discloses the claimed invention except for the panel having a curved surface. The shape of the panel 122 is considered to be a matter of obvious design choice to one of ordinary skill in the art, as no criticality or unexpected results are seen or have been disclosed for the shape of the panel being curved.

5. Claims 7-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3744

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
